Asram Ahamed

UI/UX Designer

Kandy, Sri Lanka | +94 77 698 9262 | asramahamed.design@gmail.com
Portfolio: asramahmed.online | linkedin.com/in/asram-ahamed | behance.net/asramahamed

PROFESSIONAL SUMMARY

User Experience (UX) and User Interface (UI) Designer with close to four years of full-time experience designing web, mobile and enterprise products. Contributed to the SriLankan Airlines website, Internet Booking Engine and mobile app redesign, which achieved an 85.8% CSAT score, and to enterprise portal enhancements for Telstra Australia. Works across UX research, usability testing, wireframing, high-fidelity prototyping, design systems and WCAG accessibility within Agile teams.

SKILLS

UX Design: User Research, User Interviews, Usability Testing, UX Audits, Journey Mapping, Information Architecture, User Flows, Requirement Gathering, CSAT Analysis

UI Design: Wireframing, High-Fidelity Prototyping, Interaction Design, Responsive Web Design, Mobile App Design, Design Systems, Design System Documentation, Animation

Accessibility: WCAG Compliance, Accessible Design Systems, Cross-Platform UI Consistency

Tools: Figma, FigJam, Figma Make, Figma Motion, Adobe XD, Adobe Photoshop, Adobe Illustrator, Miro, Blender, Claude Design, Jira, GitHub, VS Code

Front-End and Analytics: HTML, CSS, JavaScript, Google Analytics, Data Visualization

Ways of Working: Agile, Stakeholder Management, Cross-Functional Collaboration, Design Presentations

PROFESSIONAL EXPERIENCE

UI/UX Designer

Tiron Graphics | June 2025 – Present

- Design responsive websites from user flows and wireframes through to high-fidelity UI, aligned with business objectives and user needs.
- Conduct UX audits of existing websites to identify usability issues and recommend improvements to user journeys.
- Evaluate usability using qualitative and quantitative feedback, and refine designs through continuous testing and iteration.
- Collaborate with developers, marketers and stakeholders in Agile workflows to deliver designs across multiple devices and screen sizes.
- Create email designs and social media creatives that keep the brand consistent across digital channels.

Associate UI/UX Engineer

Axiata Digital Labs | January 2023 – June 2025

Key projects: SriLankan Airlines (website, Internet Booking Engine and mobile app redesign); Telstra Australia (enterprise telecom portal enhancements).

- Contributed to the SriLankan Airlines redesign across website, Internet Booking Engine (IBE) and mobile app, which achieved a CSAT score of 4.29/5 (85.8%).
- Designed web and mobile experiences for SaaS and enterprise products, including portal enhancements for Telstra Australia.
- Conducted user research to identify user needs and pain points, and worked with Business Analysts to translate requirements into user flows, wireframes and high-fidelity UI designs.
- Developed and maintained reusable design system components and documented design standards, improving consistency across products.
- Produced developer-ready documentation and performed UI quality assurance before product releases.
- Presented design solutions to product managers, engineers and senior stakeholders.
- Contributed to the UI/UX Community of Excellence Group through knowledge-sharing initiatives.

Intern UI/UX Engineer

EFutureTech Systems (Pvt) Ltd | November 2021 – May 2022

- Designed mobile experiences, onboarding and user flows for the JobsandCVs recruitment platform.
- Conducted user research to understand job seeker behaviours and requirements, and used the findings to guide design decisions.
- Created high-fidelity prototypes and UI/UX solutions for the DatingEyes mobile application.
- Collaborated with internal teams to align design solutions with business goals.

EDUCATION

Bachelor of Science (Hons) in Information Technology

Sri Lanka Institute of Information Technology (SLIIT) | 2023

AWARDS

- Dean's List Recognition, top 1% of the batch, SLIIT, August 2022
- Scholarship Award, Sri Lanka Institute of Information Technology, August 2022
